Please do your own research before making any purchase.Thanks for supporting my blog! Costco sells this Home Zone LED Security Light for \$29.99! Scroll down for photos. It's currently on sale for \$10 off the original price of \$39.99. These light are great to have around your property. I know we've had a string of car break-ins where I live & people have started installing these outdoor lights. They really do work great. They can be a little annoying sometimes if you are trying to get the sensitivity adjusted properly. Sometimes you get the false positives, but it's worth peace of mind. It can be a little startling if you're the one outside. I've walked up a few driveways at night before, only to feel like I got hit with a direct shot from the sun! At 4000 Kelvin, this is sure to light up a large area. Here are a few more details about this Costco Security Light.....240° Motion detection sensor with up to 70 ft. range3 lamp heads for increased light coverageEasy install, Wall or Eave MountMotion activated or manual on/off overrideAdjustable LUX settingSensitivity adjustmentTime delay selection from 1 min to 7 minDurable aluminum die cast light headEnergy Star certified5 Year WarrantyManual: Home Zone LED Security Light Model: MK-SC0108 By plantic/Shutterstock It's now much easier to protect your home by installing smart security systems. You can use a phone to remotely control lights and door locks while monitoring your house through HD security cameras. Intelligent home security systems can be customized to meet your needs, and the best part is that you don't necessarily need professional installation, you can do it yourself. Here are top picks for inexpensive smart security systems for your home. SimplisafeSimplisafe is a simple yet reliable security system that features a base station and small sensors to place around your home. The system is very easy to set up and is especially ideal for renters since you don't have to drill any holes when installing. There are no monthly subscriptions when using Simplisafe so you have to buy the system upfront. That means you save money long-term as you can also easily move with the security system into a new home.By Andrey Popov/Shutterstock FrontPointThis DIY smart home security system is easy to install and comes with a wide variety of compatible accessories to ensure a functioning abode. To use the security system, you're required to pay a one-time activation fee and recurring monthly monitoring packages that are within \$35 - \$50 depending on your equipment customization and contract length. What's unique about FrontPoint system is the Crash & Smash protection which ensures that the system continues working even if an intruder destroys the control panel. By Sensay/Shutterstock Protect Americaff you're looking for a dependable and quality home security system with flat rate fees, then Protect America might be your perfect fit. There are no installation or activation fees as you can set it up yourself within an hour. Depending on your security needs, Protect America allows you to customize your own package. However, you are only leasing the equipment from the company and do not actually own it. But you get all the alarms and additional equipment without paying costly upfront fees. By plantic/Shutterstock ScoutScout is a wireless home security system perfect for both homeowners and renters who can't stand ugly wires on walls around the house. This system requires an upfront purchase fee, and you can either buy the pre-designed kit or design your own package. The system is powered by the hub, which plugs directly into your router and communicates wireless with the security components around your house. By ESB Professional/Shutterstock BrinksRenters and homeowners can enjoy live monitoring of their house and other property assets using the high-quality and reliable Brinks Home Security system. Choose between a basic Home Complete Model or an advanced Home Complete With Video package and monitor your property live from anywhere in the world. The Brinks system also includes wireless motion sensors, touch display and cloud storage of your videos. By plantic/Shutterstock Ring Alarm Home Security SystemThis DIY security kit from Ring comes with a base station, contact sensor, keypad control panel, range extender and a motion detector. Easily switch between Home, Away mode or Disarmed mode using the keypad control panel which you can install on the wall. Also, the Ring Alarm security system includes a phone app for push notifications on events and remote control access of the alarm. By plantic/Shutterstock Adobe Home Security Starter KitThe starter kit from Adobe features a gateway hub, a motion sensor, a key fob and a door or window sensor. The Adobe essentials kit is compatible with multiple devices, particularly those that feature WiFi, Zigbee and Z-Wave technologies. It's also compatible with Amazon Alexa voice commands for convenience. By Andrey Popov/Shutterstock MORE FROM BLOGLINES Free Shipping on All US Orders Free Shipping on All US Orders We Protect We help you protect what matters the most We Secure Right to feel secure and giving you peace of mind You Accomplish Help you feeling safer, closer, and connected A fantastic, well priced, well made security light , superb purchase , and another on its way Andy Somerset I highly recommend these flood lights if you are looking for an affordable solution to dark areas around your property. All my neighbors ask me where I got these lights as they are impressed how bright they are. David I'm impressed! Even with 60watt equivalent indoor garage lights this outdoor motion lights are bright. I might even say too bright that I may unhook the left side wire to dim it some as to not bother my neighbor. Krystal Quality sound and picture you can place anywhere in your home or office love the turn motion snap pictures or record if you need to speak to someone inside your home you can are just hit listen on app to hear what's going on Kelly Easy installation, works great, very bright. James I got this for my backyard and it lights up almost the entire yard. The motion sensor will detect my dog even when he is 15-20ft away. For the price this light is hard to beat. Zach Increase Home Security with Lighting Home security will always be a hot topic for homeowners.
